Company Profile

企业简介

ABS Corporation is a modern enterprise that combines artificial intelligence (AI) technology with renowned fashion schools, creative design institutions, and resources. We strive to maintain a leading position in the industry by continuously innovating product design, enhancing product quality, and providing technical support and services. Our main products include zippers, buttons, and hardware components, which are sold in South America, North America, Europe, Southeast Asia, and the domestic market. Our customer base consists of over 1,200 high-end customers from both domestic and international markets. Our products are applicable to various industries such as clothing, footwear, bags, sofas, bedding, tents, sleeping bags, umbrellas, and travel accessories.

We possess several competitive advantages. Firstly, our brand is ranked among the top 20 worldwide in terms of brand recognition. Secondly, the ABS brand has been registered as an international trademark in 102 countries. Additionally, we hold over 100 national patents for inventions, utility models, and designs. We undertake provincial-level tasks for new product development, and three of our products have received provincial-level certifications. By utilizing intelligent production equipment and information management, we ensure that our production efficiency and product quality meet European standards.

Leveraging AI technology, we provide globalized, seamless services without time and regional differences. In the pre-sales stage, we offer value-added services such as new product development, consultation, and technical training to our customers. During the sales process, we provide real-time sharing of order production progress, ensuring high quality, efficiency, and on-time completion of customer orders. In the after-sales stage, we provide technical support, handle customer complaints and suggestions, and offer quality guarantees.

The development history of ABS Corporation is as follows:

In 2002, founder Dong Xiaojun led a team of three people to develop business in the Jiangsu, Zhejiang, and Shanghai regions, experiencing rapid growth in customer development within two years.

On July 18, 2004, a family workshop-style factory was established.

On July 18, 2007, the company was formally established, and a modern management team was formed.

In July 2009, the product research and development center was established, followed by the establishment of the international business department in September.

In June 2011, the ABS brand was registered as a trademark in 102 countries, covering major global economies.

In April 2013, the company applied for over 100 patents for inventions and utility models.

In March 2014, the company launched a 25 million technological transformation project, fully promoting intelligent production equipment and information management software. In July, the project was approved by the Bureau of Science and Technology, the Department of Information Technology, and the Department of Environmental Protection, among others. This significantly improved production efficiency and contributed to energy conservation and environmental protection, establishing the company as an efficient and environmentally friendly technological enterprise within the industry.

In February 2017, the company fully implemented intelligent production equipment and information management software. In June, the project for equipment intelligence and system informatization (integration of the two) was approved by the Economic and Information Commission of Haining City, and the company received government subsidies.

In May 2020, the company completely phased out outdated production equipment and significantly increased the automation level of machinery, reducing labor costs and improving production efficiency. This resulted in a substantial decrease in production losses and labor costs while enhancing the cost-effectiveness of products, thereby reducing procurement costs for customers.

In March 2021, the company established a dedicated leadership group for quality improvement, with the CEO personally serving as the group leader. The quality and various technical parameters were benchmarked against those of leading international brands in the industry. This marked a qualitative leap in the company's efforts to improve quality.

In 2023, the company reached a deep cooperation agreement with Zhejiang Sci-Tech University/China Academy of Art, establishing a collaborative design and development base between academia and industry. The new alliance continuously develops new products, providing customers with innovative product design solutions and contributing to the fashion industry.

In the future, we will continue to focus on product innovation, quality, services, and cost-effectiveness to create more value for customers and fulfill greater social responsibilities.

ABS公司充分融合当前人工智能AI技术，整合知名服装院校、创意设计机构资源，以推动产品设计创新、提升产品质量，并提供优质技术支持与服务。不断创新一直保持行业领先地位。以合作共赢、共同发展理念为导向的现代企业。主要产品：拉链、纽扣、五金件。销售区域：南美、北美、欧洲、东南亚、及国内市场。客户群体：1200多家国内外中高端客户。适用产品：服装、鞋帽、箱包、沙发、床上用品、帐篷、睡袋、伞业、旅游用品等。产品优势：品牌知名度排名世界前20强。102个国家注册了ABS品牌国际商标。100多项国家发明专利、实用新型专利、外观专利。承担省级新产品研发任务，其中3项通过省级新产品鉴定。智能化的生产设备+信息化管理确保生产效力、产品品质符合欧洲标准。利用人工智能技术，实现全球化无时差的无差异服务。在售前，我们为客户提供增值服务，包括新产品开发、咨询解决方案和技术培训等。在售中，我们提供订单生产过程和进度的实时共享，并高质量、高效率地按时完成客户订单。售后为客户提供技术支持，客户投诉、建议受理，反馈及质量担保等。

公司历程

2002年，创始人董小军带领三名团队成员，在江浙沪地区开展业务并进入市场。经过两年的不懈努力，业务迅速壮大。

2004年7月18日创办家庭作坊式工厂。

2007年7月18日正式成立公司，并组建了现代化管理团队。

2009年7月成立产品研发中心、9月成立国际业务部。

2011年6月公司在全球主要经济体102个国家注册ABS品牌商标。

2013年4月公司向国家专利局申请100多项发明、实用新型专利。

2014年3月，公司启动了2500万的技术改造项目，并全面推广智能化生产设备和信息化管理软件。该项目于7月通过科技局、信息化和环保等部门验收，大幅提高了生产效率并实现节能减排，使公司成为行业内高效、节能环保的科技型企业。

2017年2月，公司再次全面推广智能化生产设备和信息化管理软件。6月份，公司二次融合（即将设备智能化与系统信息化相结合）项目通过海宁市经信局验收，并享受政府补贴。

2020年5月公司全面淘汰落后生产设备并大幅增加机器设备自动化程度，降低人力成本提高生产效率，大幅降低生产损耗及劳动力成本，提高产品性价比为客户降低采购成本。

2021年3月公司单独成立品质提升改造领导小组，组长由总经理亲自担任，品质及各项技术参数全部对标当前国际一流同行业品牌的技术参数及标准，为品质提升工作有了质的飞跃。

2023年公司与中国美术学院/中国美术学院达成深度合作协议，成立校企设计开发产学研基地，不断的开发新产品，为客户提高更多更新的产品设计解决方案，

公司生产设备
Manufacturing Equipment

Perfectly combination of metal zipper machine with raw material:

- 1.metal zipper machine:the most advanced teeth implantation machine & 360-degree grinding machine & ironing machine & auto-production equipment.
- 2.Raw material:the best poly-yarns in China & earth-friendly dyeing material from Germany & copper from Chile.

Perfectly combination of nylon zipper machine with raw material:

- 1.nylon zipper machine:the most advanced weaving machine & the most advanced forming machine & the most advanced sewing machine.
- 2.raw material:the best poly yarns in China & the best single filament in China & earth-friendly dyeing material from Germany

Perfectly combination of plastic zipper machine with raw material:

- 1.plastic zipper machine:the most advanced teeth-placing machine & the most advanced injection molding machine & the best auto-production equipment in China.
- 2.raw material:poly formaldehyde(POM) & dyeing material from Germany.

金属拉链机器&材料完美结合：

- 1， 机器：最先进的植齿机&360度打磨机&整烫机&自动化的生产设备
- 2， 材料：国内最好的涤纶纱&德国进口的环保染料&智利进口的铜材

尼龙拉链机器&材料完美结合：

- 1， 机器：国内最先进的织布机&国内最先进的成型机&国际最先进的缝合机
- 2， 材料：国内最好的涤纶纱（翔路牌）&国内最好的单丝（昆山立泰）&德国进口环保染料

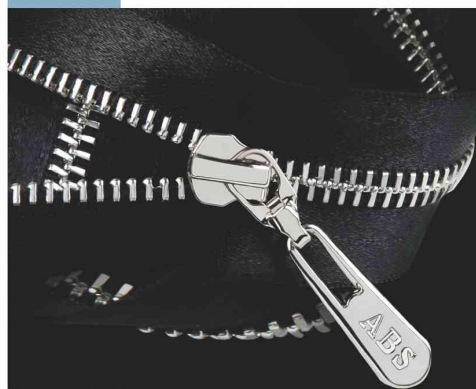

树脂拉链机器&材料完美结合：

- 1， 机器：国内最先进的排牙机&国内最先进的注塑机&国内最好的自动设备。
- 2， 材料：聚甲酴（台塑钢）&颜料（德国进出品牌）

产品介绍 Product Description

金属拉链 Metal zipper

金属优点：
耐腐蚀抗氧化、缝制不起拱、双开拉链顺滑，
材料及电镀工艺与YKK同一个供应商。

Advantages of metal zippers include strong corrosion resistance and oxidation resistance, making them suitable for various harsh environments. The stitching of metal zippers does not arch, resulting in a smooth and aesthetically pleasing appearance. The dual-opening feature of metal zippers allows for smooth and convenient operation. Additionally, the materials and electroplating processes used in metal zippers come from the same supplier as YKK, ensuring high quality and consistency.

尼龙拉链 Nylon Zipper

尼龙优点：
柔软顺滑、抗扭曲、缝制不起拱、强力高于同类产品，材料及电镀工艺与YKK同一个供应商。

Nylon zippers offer advantages such as a soft and smooth texture, allowing for easy and smooth operation. They have strong resistance to distortion and are less prone to deformations. The stitching of nylon zippers also maintains a flat appearance without arching. Furthermore, nylon zippers exhibit higher strength compared to similar products. Similar to metal zippers, the materials and electroplating processes used in nylon zippers are sourced from the same supplier as YKK, guaranteeing reliable quality and craftsmanship.

产品介绍 Product Description

树脂拉链 Plastic Zippe

树脂优点：
牙型可定制、缝制不起拱、抗静电，材料及电镀工艺与YKK同一供应商。

Resin(Vislon) zippers have the advantage of customizable tooth shapes, allowing for the design of different zipper tooth profiles according to specific needs. The stitching of resin zippers also ensures a flat appearance without arching, enhancing the overall aesthetic. Resin zippers possess anti-static properties, reducing static accumulation. The materials and electroplating processes used in resin zippers are also provided by the same supplier as YKK, ensuring high quality and reliability.

Corporate Social Responsibility (CSR): In addition to creating profits and fulfilling legal obligations to shareholders and employees, our company recognizes the responsibility towards consumers, communities, and the environment. Instead of prioritizing profit as the sole objective, we emphasize the value of people in the production process and the contributions to the environment, consumers, and society.

Scientific Development: The mission of the company is to achieve development and profitability while also contributing to increased tax revenue and national progress.

Sustainable Development: Recognizing the finite nature of environmental resources, we emphasize the need for recycling and resource conservation in line with our development.

Environmental Protection: With global and domestic economic development, environmental degradation, especially air, water, and marine pollution, is becoming increasingly severe. Our company increases its investment in environmental protection and maintenance every year, continually raising the environmental protection budget to contribute to the natural harmony of humanity.

Protection of Workers' Rights and Interests: The physical health of our employees is a fundamental right. We prioritize labor protection, continuously improve worker welfare and salary levels, and strive for the mutual development of the company and its employees.

Responsibility to Shareholders: We strictly comply with relevant laws and regulations, ensuring the safety and returns on shareholders' investments. We provide timely and reliable information regarding business operations and investments to fully protect shareholders' rights and interests.

Responsibility to Consumers: As an organization that profits from providing products and services to consumers, we aim to offer high-quality, affordable, safe, comfortable, and durable goods and services, satisfying consumers' material and spiritual needs.

企业社会责任（CSR），是我们企业在创造利润、对股东和员工承担法律责任的同时，还必须承担对消费者、社区和环境的责任，我们没有把利润作为唯一目标，我们强调要在生产过程中对人的价值的关注，强调对环境、消费者、对社会的贡献。

科学发展：企业的任务是发展和赢利，并担负着增加税收和国家发展的使命。

可持续发展：人类的环境资源是有限的，我们在发展的同时更加注重可循环利用与节约资源相适应。随着全球和我国的经济的发展，环境日益恶化，特别是大气、水、海洋的污染日益严重。我们的企业每年加大保护环境维护治理投入，不断的提高环境保护预算，为人类自然和谐做贡献。

文化建设：我们的企业每年提供一定的预算来发展教育和文化建设事业。

保护职工权益：我们企业对公司员工的身体健康是最基本的权利，搞好劳动保护，不断提高工人劳动保护与工资水平，让企业与员工共同发展。

企业对股东的责任：我们企业严格遵守有关法律规定，对股东的资金安全和收益及时向股东提供真实、可靠的经营和投资方面的信息，充分保障股东权益。

消费者的责任：为消费者提供产品和服务来获取利润，提供物美价廉、安全、舒适、实用的商品和服务，满足消费者的物质和精神需求。
